PROFILE SUMMARY

First-year BS Artificial Intelligence student at the University of Karachi with hands-on experience delivering visual content for university-level events. Skilled in graphic design, video editing, and AI-powered creative workflows. I build work that is both visually sharp and strategically crafted — from cinematic poster design to motion graphics. Currently seeking freelance projects and internships at the intersection of design and intelligent technology.

PROFESSIONAL EXPERIENCE

FAST-NUCES

Graphic Designer & Visual Content Creator | June 2024 (1 Month)

- Designed high-impact posters, banners, and promotional materials for university events, maintaining strict brand consistency across all assets.
- Produced and edited lecture videos using Adobe After Effects and CapCut, incorporating motion graphics to improve student comprehension.
- Managed multiple simultaneous design and video projects under tight deadlines while maintaining professional audio/visual standards.
- Collaborated with the Media Society to develop creative concepts and social media content, ensuring a cohesive visual identity across all platforms.
- Adapted creative assets iteratively based on stakeholder feedback to meet specific project goals and audience engagement targets.
